MASSAGE & PAIN RELIEF

MAGNETIC THERAPY

Our exclusive Master Force Bio-Magnetic Therapy System offers the benefits of magnetic therapy in the comfort of a hot tub. Magnetic therapy has been used for centuries to help relieve pain, improve circulation, reduce swelling and alleviate stiffness. Today, more and more doctors and physical therapists are using magnetic therapy for the treatment of back problems, arthritis and sports injuries.

That's why Master Spas, after extensive research and development, chose to combine the proven benefits of hydrotherapy with the pain relieving comfort of bio-magnetic therapy. Our Master Force Bio-Magnetic Therapy System applies strategically placed magnets to two pressure points behind the neck and eight throughout the shoulders, back and seat areas in our exclusive StressRelief Neck and Shoulder Seat.

"I have owned several different hot tubs and by far this is the best hot tub I have ever owned! The power of the jets give me the massage I need. I have a very bad back and I've found that the massage is incredible! I have also had major surgeries on my legs and noticed that the leg jets in the lounger have improved my mobility greatly. I am simply amazed!"

—Sean C., West Kelowna, BC, Canada

STRESSRELIEF NECK AND SHOULDER SEAT

Our exclusive StressRelief Neck and Shoulder Seat features specially designed jets that apply tension-relieving massage where it's needed most, across the neck and shoulders.

MASTER BLASTER FOOT MASSAGE THERAPY

Our Master Blaster Foot Massage Therapy System uses dual jet clusters with 28 total individual nozzles designed to rejuvenate your body through an encompassing foot massage. This unique form of reflexology is supported by scientific studies showing the health benefits of foot massage. Our Master Blaster Foot Massage Therapy System is powered by a separate, oversized pump, generating powerful yet soothing foot relief.

EXTERIOR LIGHTING SYSTEM

THE MAKING OF A LEGEND

MASTER-CRAFTED, LEGENDARY REPUTATION

Master Spas builds on its reputation for innovation with the quality materials and forward-thinking design of the Michael Phelps Legend Series. All of Master Spas hot tubs are manufactured in the USA at the company's Indiana campus and each design is master-crafted for energy efficiency and ease of use. Explore the features that distinguish Master Spas as a leader in hot tub design, construction and performance.

- **EXCEPTIONAL QUALITY STANDARDS** Each hot tub undergoes a 100-point, multi-part inspection process that includes water testing.
- **ENGINEERED FRAME** Our heavy duty engineered frame features a coated toe-kick to reduce moisture absorption where it matters most, the part of the frame closest to the ground.

- **VAC-FORMED ABS PAN BOTTOM** helps keep in the heat and the elements out.
- **MANIFOLD PLUMBING SYSTEM** ensures that pressure is distributed equally between the spa's jets. The system makes it easier to control the stream of water and enjoy benefits of massage.
- **ENVIRONMENTALLY-FRIENDLY FOAM INSULATION** makes Master Spas hot tubs among the most energy efficient in the industry. Not only is it good for the Earth, but the insulation makes the hot tub less costly to operate. Every Master Spas hot tub is built to not only meet but to exceed stringent energy-efficient regulations.
- **ECOPUR® CHARGE MASTER CORE TECHNOLOGY*** is a patent-pending filtration system that takes the work out of maintaining your hot tub. Using the same multi-stage filtration techniques as Mother Nature, EcoPur Charge relies on a unique blend of copper and zinc that creates an electrochemical reaction to eliminate many microorganisms and remove heavy metals. This dramatically reduces the amount of sanitizer needed. It is designed so your hot tub can be ready to use at any time, without maintenance worries, so you can relax.
- **DURAMASTER PREMIUM™ SKIRTING** is made of high-impact, weatherable polymer. It features authentic wood grain patterns randomly etched into the polymer for a rich, three-dimensional look. The skirting has virtually no fading and is so durable, it comes with a lifetime warranty.

RELAXATION FIRST,
WATER CARE SECOND.

Experience a new level of spa care with the Master Clear Salt System — where a small amount of salt transforms into a premium sanitizer that's safe for you, your family, and your hot tub.

This innovative smart system redefines the concept of a saltwater hot tub, delivering consistently pristine and inviting water with fewer water changes. It continuously monitors salt and sanitizer levels, making adjustments only when necessary. The result? Soft, silky water that's gentler on your skin and eyes than traditional systems. Plus, it leaves behind a naturally fresh scent, free of harsh chemical odors.

HOW IT WORKS

- Monitors: The system continuously tracks salt and sanitizer levels to keep your water balanced.
- Activates: When sanitizer levels dip, the Smart Cell uses a small electrical charge to convert salt into sanitizer.
- Master Clear App: Effortlessly monitor salt levels and ensure sanitizer levels are balanced from the palm of your hand. This app is designed specifically for our salt system, providing real-time updates and control wherever you go. Available in the Apple® and Google Play™ stores.
- Relax: Unwind in pristine water with less effort and more peace of mind.

The Master Clear Salt System is a premium option for Michael Phelps Legend Series hot tubs.
