Master Spas®

TRAINER 21D

# WIN YOUR DAY

## INTRODUCING THE SWIM SPA THAT GIVES YOU POWER OVER YOUR WELLNESS

Exercise and entertain in the convenience and privacy of your backyard — without the upkeep of a traditional pool. With an H2X Fitness Swim Spa, you will be able to swim, jog and work out against the water current created by our innovative jet system. Enjoy the built-in therapy of the contoured seating and massaging jets, all designed so you can own your wellness — and win your day.

### MOVE BETTER

The H2X Fitness Swim Spa helps you get active and stay active. Enjoy swimming, walking, rowing and fitness activities.

### FEEL BETTER

Together, premium therapy jets and warm water deliver the ultimate in relaxation.

### LIVE BETTER

The H2X Fitness Swim Spa series helps you achieve balance with your health, life and family — year-round.

# FITNESS

## SWIM AND EXERCISE WITH CONVENIENCE

H2X Fitness Swim Spas give you the freedom to enjoy effective, low-impact workouts — without the frustration of a fitness center. Once in the water, you'll find that H2X models have a large, flat floor with no hidden obstacles, making it the choice for a variety of fitness exercises. With the jets off, you can experience the benefits of resistance training and range-of-motion exercises. Water buoyancy naturally makes exercising easier on the joints and this approach offers a total mind and body workout that is effective, yet gentle.

### SWIM

Enjoy a continuous swimming experience with an H2X Fitness Swim Spa. Thanks to an adjustable jet system, a flow of water creates resistance so you can move — without actually moving. Swim, jog or practice drills without having to turn. And you have the power to set the pace of your workout by changing the speed settings. Everyone from novice swimmers to competitive triathletes will enjoy the experience that mimics open-water swimming.

*"This spa is a dream come true. I can swim anytime, on my own terms, without worrying about scheduling or the cleanliness of public pools – and I can use it for way longer than just two summer months!"*

— Vesna, Ontario

## FITNESS

The buoyancy of water reduces stress on the joints, improves range of motion and offers natural resistance. All fitness levels can benefit from using the H2X for aerobics, strengthening and stretching.

## TRAINING

The H2X Fitness Swim Spa allows you to train year-round in an environment where you control the resistance and water temperature. Whether you are a first-time triathlete or a seasoned marathoner, you can progress to higher-level training without additional stress.

## CONVENIENCE

With an H2X, fitting in a workout or recovery session is easy. The H2X is just steps away, year-round, so you don't have to worry about traffic or pool hours.

### H2XERCISE FITNESS SYSTEM

Enjoy the benefits of aquatic resistance training with the H2Xercise Fitness System. With the purchase of your swim spa, you'll receive a rowing kit, resistance bands and the H2Xercise Aquatic Workout book by aquatic fitness/conditioning expert, Dr. Rick McAvoy.

*"The aquatic workout kit is really fun! I just had back surgery three months ago and needed a low-impact workout and a way to strengthen my core. I've lost weight and my back feels better! Plus, the jets help massage my back with the high heat. I'm definitely motivated to workout!"*

— Korinne, Texas

# THERAPY

## RELAXATION FOR YOUR BODY AND MIND

Life can be busy but it should not get in the way of taking time for yourself. The H2X Fitness Swim Spa provides a calming retreat where you can find relief from muscle aches and achieve peace of mind. Experience the best of hydrotherapy with adjustable temperature controls and thoughtful jet placement.

### RELAX

Experience the reverse molded StressRelief Neck and Shoulder Seat™\*, available on select models. Specially designed shoulder jets deliver a tension-relieving massage where it's needed most, across the neck and shoulders.

### RECOVER

The jets of the Xtreme Therapy™ Cove\* deliver a complete therapeutic massage for your lower back, hips, thighs and calves. The warm water also improves circulation, delivering nutrients and oxygen to tired muscles.

### RENEW

Taking time at the end of a busy day can help you ease stress, improve your mood and sleep better. Spending 20 minutes in an H2X is time to make yourself and your wellness a priority.

### MASTER BLASTER® FOOT MASSAGE THERAPY\*

Our exclusive Master Blaster Foot Massage Therapy System uses a cluster jet with 14 individual nozzles designed to rejuvenate your body through an encompassing foot massage.

\*Available on select models.

TRAINER 21D

*“My wife and I both have arthritis at the knees and the exercise we get in the Trainer 15 Deep, along with the spa section for just relaxing, has exceeded our expectations.”*

— Gary, California

## MAGNETIC THERAPY

Our exclusive, patented Master Force™ Bio-Magnetic Therapy System\* offers the benefits of magnetic therapy in the comfort of a swim spa. Magnetic therapy has been used for centuries to help relieve pain, improve circulation, reduce swelling and alleviate stiffness. Today, more and more doctors and physical therapists are using magnetic therapy for the treatment of back problems, arthritis and sports injuries.

That's why Master Spas, after extensive research and development, chose to combine the proven benefits of hydrotherapy with the pain relieving comfort of bio-magnetic therapy. We strategically place magnets behind the StressRelief Neck and Shoulder Seat™ to provide relief to your pressure points.

\*Available on select models.

## SET THE MOOD FOR RELAXATION

The LED lights beautifully illuminate the water, the cascading waterfalls and topside controls. With a spectrum of options, you choose the best hue for your night-time swim spa experience.

# RELAX

## EASY TO OWN, EASY TO ENJOY

At Master Spas, we build year-round use and energy savings into our swim spas. The foam insulation of the H2X is environmentally friendly and exceeds even the most stringent efficiency regulations. It makes it one of the most energy-efficient swim spas on the market, saving you money on your monthly utility bill. By expanding to tightly seal and secure all areas under your swim spa, our insulation:

- Prevents heat loss
- Retains its shape and efficiency for the life of the product
- Resists mold and mildew
- Reduces the noise of your swim spa
- Produces no ozone harming off-gas and is environmentally safe

## CLEAN, REFRESHING WATER

At Master Spas, we want you to spend more time enjoying your swim spa and less time taking care of it. That's why we developed the exclusive and patent-pending EcoPur Charge Master Core Technology water purification system.

Taking a hint or two from Mother Nature, the EcoPur Charge water purification system incorporates a specific blend of minerals into one of the filters in your swim spa. As the water rushes into, over and through EcoPur Charge, large contaminants are first filtered from the water. Then, the water interacts with

a special blend of minerals, including copper (Cu) and zinc (Zn), creating an electro-chemical reaction that helps eliminate many microorganisms and removes heavy metals from the water. This results in sparkling water that feels softer and doesn't have the harsh chemical smell associated with common

systems. Every H2X Fitness Swim Spa by Master Spas also features an advanced ozone system that kills pathogens and microorganisms, while destroying organic materials. It also oxidizes non-organic contaminants to keep your water clean and refreshing every time you use your swim spa.

## MAST3RPUR WATER MANAGEMENT SYSTEM

The synergistic blend of three proven natural sanitizers provides water quality and swim spa care not found in any other swim spa, including those with salt systems. The optional Mast3rPur Water Management System dramatically reduces harsh chemical consumption, like chlorine, while removing many heavy metals and chloramines for water that looks crystal clear, smells fresh and has a silky feel. This innovative, exclusive benefit is due to the power of three elements:

When absorbed in water, **ozone** kills pathogens and microorganisms, destroys organics and oxidizes non-organic contaminants.

When germicidal **UV-C light** is exposed to water, it inactivates microorganisms and breaks down chloramines.

The unique combination of **copper and zinc** in the patent-pending EcoPur Charge filters creates an electro-chemical reaction to eliminate many microorganisms and remove heavy metals such as lead and mercury.

Each of the three elements are proven effective water management tools but when they are combined, their synergy makes them dramatically more effective through a chemical reaction known as Advanced Oxidation Process (AOP). AOP is superior to other systems because it produces powerful hydroxyl radicals that maximize disinfection and reduce chloramines fast and effectively. Clean, clear, fresh-smelling and better-feeling water is available now with less work—another innovative, exclusive benefit only available through Master Spas.

## VELOCITY INJECTOR PLATE TECHNOLOGY

We want you to get the most out of your swim spa experience. That's why Master Spas designed the Velocity Injector Plate (VIP) Technology. The unique design of the plate takes advantage of the flow of water to control turbulence and increase water volume. This means that you will feel the difference from the first stroke. And, because it changes the way the water is released into the swim spa, the system offers much better performance than standard jetted swim spas.

# CHALLENGER

## CHALLENGER SERIES

The Challenger series bridges the gap between fitness and performance. Designed for swimmers and fitness enthusiasts alike, Challenger Swim Spas make it easier to take your training to the next level. Challenger models feature a powerful swim system with six airless jets and three pumps, delivering a smooth, wide current of water that's free of turbulence.

### AQUASPEED VSP™

With the AquaSpeed VSP system, working toward your goals has never been so clear. The intuitive dial control lets you fine-tune the pace of your workout. Whether you're doing intervals or prepping for your next endurance event, you can set the perfect pace for every session.

**Who will love it:** Athletes and fitness enthusiasts

# TRAINER

## TRAINER SERIES

H2X Fitness Trainers deliver a swimming and exercise experience superior to traditional air-injected jetted swim spas. Combining engineering and thoughtful design, the VIP Technology produces a smoother, more efficient flow of water that is ideal for swimming in place, aqua jogging, and water walking. H2X Fitness Trainer offers more than just fitness. As an alternative to a traditional pool, it provides space for recreation, family fun, and relaxation. Built-in massage jets, the Xtreme Therapy Cove, and an adjustable water temperature allow you to create a personalized wellness experience.

**Who will love it:** Fitness enthusiasts and therapy seekers

# THERAPOOL

## THERAPOOL SERIES

Ideal for fitness and exercise, H2X Fitness Therapool models help you get active and stay active. Therapool models feature up to three Flow Stream jets that complement the natural resistance of water so you get the most out of your workout. Hydrotherapy and relaxation are built-in, with the contoured seating, massaging jets and ability to adjust the water temperature up to a soothing 99 degrees Fahrenheit.

**Who will love it:** Fitness and therapy seekers

## TEMP+ CONTROL

Refreshingly cool, refreshingly efficient. Temp+ Control keeps your swim spa water comfortable in every season. On hot summer days, it cools the water for a welcome break from the heat. Fully integrated into the spa's plumbing and software, the advanced heat pump maintains your ideal temperature while reducing energy use and lowering operating costs.

**Models with this feature:** Challenger 15D Temp+ Control, Trainer 15D Temp+ Control

# Challenger Series Swim Spas

*Elite Performance, Airless VIP Technology, Programmable Speed*

Designed to move you. From the sleek lines of the spa to the strategic placement of the jets, every detail of the H2X Challenger Series is crafted for performance. Experience the smooth, powerful swim you didn't think was possible at home—with the pool alternative you've been dreaming of.

## PREMIUM OPTIONS

**FUSION AIR SOUND SYSTEM** Listen to your favorite music while enjoying your swim spa with the Fusion Air Sound System. This system includes up to four interior, water-resistant speakers and a subwoofer to maximize the sound quality. The Fusion Air Sound System connects quickly and easily through the Bluetooth of your phone or other device allowing you to stream your favorite station or playlist.

**BLUETOOTH SPEAKER** Whether you are hanging out with loved ones or want to create a moment of calm, the right playlist can help you set the mood. This sound system has 40W power and a bass boost with up to 10 hours of playtime. This sound system is designed to rest on the water features of the spa.

**NONSLIP, COMFORT FLOOR SYSTEM** Continuing our trend to make the best even better, we've raised the bar with the Nonslip, Comfort Floor System. This system provides better grip, traction and comfort on both the steps and floor of the swim spa, making our swim spas as safe and easy as possible to use while getting in, out or exercising. Optional on Therapool models.

**AXIS COVER SYSTEM** Where innovative design meets convenience. The unique rolling cover makes it easier than ever to open your swim spa. One person can easily roll back the cover, opening up the possibilities for swimming, exercise, and relaxation. Featuring a one-piece design and durable materials, the Axis Cover System protects your swim spa from the elements and weather.

**HEAT PUMP** Enjoy year-round comfort in your H2X Swim Spa. This advanced heat pump upgrade enhances heating power for cold weather and adds cooling for hot days. Fully integrated with your spa's software, it maintains your ideal temperature efficiently while helping lower energy costs. Available as a premium, dealer-installed option.

**MAST3RPUR WATER MANAGEMENT SYSTEM\*** A synergistic blend of three proven natural water sanitizers combine to make a dramatically more effective chemical reaction known as Advanced Oxidation Process. This results in clean, clear, fresh-smelling and silkier water. The Mast3rPur system includes the QuietFlo circulation pump.

\* Available on most models.

## MASTER SPAS CARES

Master Spas is dedicated to helping people live life better. Our faith and beliefs guide us in partnering with local and national organizations for the greater good.

**St. Jude Children's Research Hospital** Leading the way the world understands, treats and defeats childhood cancer and other life-threatening diseases.

**Michael Phelps Foundation** Works to promote healthy, active lives, especially for children, primarily by expanding the opportunities for participation in the sport of swimming. Programs provide a learn-to-swim, healthy living, and goal-setting curriculum worldwide through the Boys and Girls Club of America and Special Olympics International.

**Lupus Foundation of America** Works to improve the quality of life for people living with lupus through research, advocacy, and support. Lupus is a complex disease affecting more than 1.5 million Americans that requires a comprehensive strategy.

**Michael J. Fox Foundation** Dedicated to finding a cure for Parkinson's disease and to ensuring the development of improved therapies.

**Tunnel to Towers Foundation** Helps families of fallen service members and first responders by providing mortgage-free housing. Tunnel to Towers builds custom-designed smart homes for catastrophically injured veterans and first responders. The foundation is also committed to eradicating veteran homelessness.

**Vera Bradley Foundation** A driving force in the fight against breast cancer, the foundation helps fund research to find a cure and improve the therapies for the most difficult-to-treat types of breast cancer, helping women affected by the disease.

H2X FITNESS SWIM SPAS ARE MANUFACTURED BY MASTER SPAS, AN AWARD WINNING COMPANY YOU CAN TRUST.

Master Spas® reserves the right to change product specifications or features without notice. Master Spas is a manufacturer of swim spas and related products and we stand behind every product we produce pursuant to those representations which are stated in our written limited warranty. Your dealer is an independent businessperson or company and not an employee or agent of Master Spas, LLC. We cannot and do not accept any responsibility or liability for any other representations, statements or contracts made by any dealer beyond the provisions of our written limited warranty. NOTICE: Although in some photos of the swim spas in the brochure the warning signage has been removed from the photos (for photographic purposes only) or is not visible, such warning signage should not be removed from the units at any time. REMINDER: Never allow anyone to dive into a swim spa. Always enter feet first. All photographs are registered copyrights of Master Spas, LLC. Master Spas, H2X, EcoPur, Master Blaster and Axis are registered trademarks of Master Spas, LLC. Patents: masterspas.com/patents

Made in the USA  
with U.S. and imported parts
