Win your day with a Michael Phelps Swim Spa by Master Spas.

### MICHAEL PHELPS

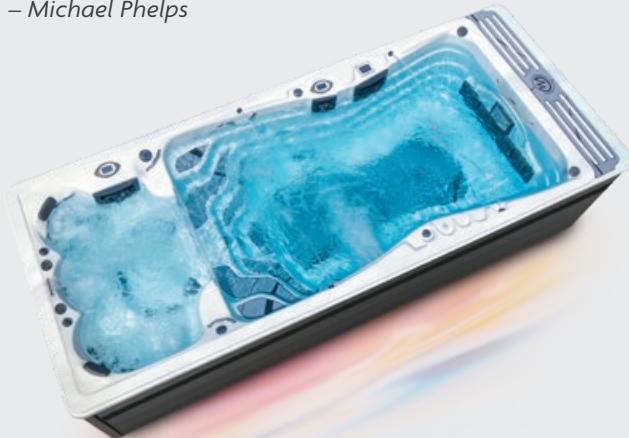

23-TIME GOLD  
MEDALIST

In 2010, Master Spas started working with Michael Phelps and his coach. With input from Phelps, Master Spas was able to build upon its swim spa line and create a pool alternative that would benefit Phelps and his training. More than that, the collaboration would grow the options for anyone who wanted a place to enjoy aquatic exercise and therapy, year-round.

*"The Michael Phelps Signature Swim Spa helped me when I was in serious training mode. It allowed my coach to see and advise me on how to perfect my stroke. Whether you're on day one of a training program, recovering from an injury or would enjoy a relaxing time with your family, you can benefit and feel great with a Michael Phelps Signature Swim Spa by Master Spas."*

— Michael Phelps

## THE BETTER POOL ALTERNATIVE

Traditional pools are subject to the weather conditions and seasons. Depending on where you live, you might be able to use a pool only two months out of the year. Michael Phelps Signature Swim Spas are designed to be used 365 days a year.

**EASE OF INSTALLATION:** Once your site is ready for delivery, installation takes less than a day.

**GREAT FOR SMALL SPACES:** A swim spa can be installed on a concrete pad or decking, making it an ideal fit for almost any yard.

**VERSATILITY:** Meet your year-round backyard spot for swimming, exercise, relaxation, and recreation. A Michael Phelps Signature Swim Spa combines the enjoyment of a swimming pool with the therapy of a hot tub.

**EASY TO MAINTAIN:** Spend more time enjoying your swim spa and less time taking care of the water.

## SWIMMING

Enjoy a continuous swimming experience with a Michael Phelps Signature Swim Spa. A generous swim area offers the space to refine your stroke, focus on body position, and improve your fitness. With easy-to-use controls, you can set your pace. That's why Master Spas is the Official Partner of U.S. Masters Swimming.

## FITNESS

A Michael Phelps Signature Swim Spa will help you change the way you move. Take advantage of the natural properties of water to improve your endurance, strength and flexibility. The buoyancy of water reduces stress on the joints and improves range of motion. Water's resistance varies on the speed of the movement but it can be between 4 and 42 times greater than air. It's like a weight machine that you don't have to change the settings on.

## THERAPY

Life can be busy but it shouldn't get in the way of taking time for yourself. A Michael Phelps Signature Swim Spa provides a calming retreat where you can find relief from muscle aches and acquire peace of mind. Adjustable jets offer a customized massage, whether you prefer gentle pressure to a maximum muscle-kneading force. Choose one of the ergonomic therapy seats or the stand-up Xtreme Therapy Cove, and discover the perfect spot to melt away stress, recover from a workout, or manage chronic pain.

## FAMILY FUN

A busy schedule can make it challenging to spend time with your favorite people. A Michael Phelps Signature Swim Spa creates a backyard destination where all ages will enjoy swimming, exercising, relaxing, and playing.

# CLEAN, PURE WATER

With the patented EcoPur® Charge mineral purification system, you can enjoy more time in the water and less time taking care of it. Inspired by Mother Nature, the EcoPur® Charge system incorporates a specific blend of minerals to eliminate most microorganisms and remove heavy metals from the water. This results in sparkling water that feels softer and smells fresher.

## MAST3RPUR™ WATER MANAGEMENT SYSTEM

The synergistic blend of three proven natural sanitizers provides water quality and care not found in any other swim spa. The Mast3rPur Water Management System dramatically reduces the amount of added chemicals while removing many heavy metals and chloramines for water that is clean, clear, and fresh-smelling. This innovative, exclusive benefit is due to the power of three elements:

OZONE kills pathogens and microorganisms, destroys organics and oxidizes non-organic contaminants.

UV-C light inactivates microorganisms and breaks down chloramines.

Minerals such as COPPER and ZINC create a reaction to eliminate many microorganisms and remove heavy metals that you don't want in your water.

Mast3rPur is a premium option that includes the QuietFlo Water Care System circulation pump.

## WAVE PROPULSION® TECHNOLOGY: A CLEAR DIFFERENCE

The Michael Phelps Signature Swim Spa by Master Spas is built for those who want the best from their training. The exclusive Wave Propulsion Technology delivers a powerful, wide stream of water. Unlike jetted swim spas, there's no air added — just clean flow of water for a smoother, more enjoyable swim.

The unique propeller design does not require air to be introduced into the water to increase its strength. This allows for a more realistic swimming experience with less turbulence and the ability to swim any stroke you want.

## ADVANTAGES OF WAVE PROPULSION TECHNOLOGY:

- Deep, wide stream of water
- Smooth, steady current with minimal turbulence
- No air injection or tether required
- Swim in place, no flip turns needed
- Variable speed control for all levels

## WAVE XP PRO PROPULSION™

From zero to 100 and every pace in between, the Wave XP Pro Propulsion System produces a current fast enough to meet the challenges of your routine, with equivalent to a sub-60 second pace per 100 meters.

(The Wave XP Pro System is available only in North America.)

## WAVE XP PROPULSION™

Standard on international swim spas, the Wave XP System produces a water current equivalent to a sub-75 second pace per 100 meters.

## MP MOMENTUM™ D

The MP Momentum D by Master Spas combines elite performance and total relaxation. Swim against the smooth, adjustable Wave XP Pro Propulsion current, tailored to your resistance level. Then unwind in a full-size hot tub with 36 therapeutic jets and ergonomic seating. Set the swim side to your ideal temp in the 80s, then soak in hydrothermal bliss up to 104°F. It's more than relief—it's your all-in-one wellness retreat.
